Muhammad Sufian was born with visual impairment and attended school for the first time at the age of 10. Lighthouse School, a special education school supported by Community Chest, gave him the help he needed most.

Despite a late start in education due to financial difficulties, Sufian mastered Braille within three years and is now able to read story books. He is also learning to play the piano. He hopes to play the piano so well that he can be a piano teacher one day.

100% of your donation to Community Chest goes towards helping Sufian and others like him. From 1 April 2016, your increase in donation through SHARE, Community Chest's monthly giving programme, will also be matched dollar-for-dollar by the Government under the SHARE as One programme. Your sustained support will make a lasting impact on the lives of those we help.
